

## DOES CANCER RUN IN YOUR FAMILY?

Your healthcare provider needs to know for your visit today!

**1 Use your phone to access our screening site**

[www.myGeneHistory.com/janeylhammons](http://www.myGeneHistory.com/janeylhammons)

**2 Enter your personal and family cancer history**

Don't forget your grandparents, aunts,  
uncles and cousins on both sides!

**3 Show your result to your healthcare provider**

If you have a cancer family history that is high risk,  
watch the video to learn how knowing your genetics  
can help.

**Myriad myRisk® Hereditary Cancer testing  
may be an option for you today.**

Name: \_\_\_\_\_

Date of Birth: \_\_\_\_\_

Today's Date: \_\_\_\_\_

### Check the box based on the result you receive:

- Based on your answers, you appear to meet society guidelines for hereditary cancer testing. You may be a candidate for Myriad myRisk® Hereditary Cancer testing. Please make sure to discuss your results with your provider.
- Based on your answers, you do not appear to meet guidelines for hereditary cancer testing. However, it is still important to discuss your personal and family history with your healthcare provider.
